SUMMARY

Aspiring web developer with a passion for creating user-friendly and visually appealing websites. Currently working as a **Trainee Software Engineer**, eager to further contribute and excel in dynamic projects utilizing my expertise in modern web development technologies.

WORK EXPERIENCE

Trainee Software Engineer SysAssist IT Solutions   **September 2024 – Present**

- Contributed to two major projects: Customer Relationship Management (CRM) and Payroll Management System.
- CRM Project: Designed and implemented user interfaces for managing customer data, streamlining workflows, and enhancing customer interactions.
- Payroll Project: Built dynamic, role-based menus and employee management modules with features like attendance tracking and payroll generation.
- Technologies used: React JS, Tailwind CSS, Shadcn UI, React Hook Form, Zod, Yup.

PROJECTS

CRM Application

- Designed intuitive user interfaces and implemented forms with complex validation using React Hook Form, Zod, and Yup.
- Improved user experience through responsive layouts created with Tailwind CSS and Shadcn UI.
- Integrated APIs to manage and display customer data effectively.

Payroll Management System

- Developed a dynamic menu system based on role-based permissions.
- Implemented modules for employee attendance and payroll generation
- Utilized modern technologies like React JS, Tailwind CSS, and Shadcn UI for a seamless user experience.

Personal Portfolio Website

- Showcased skills, qualifications, and projects with an interactive and user-friendly design.
- Built using React JS, Tailwind CSS, and integrated responsive features.
- More details in the portfolio website.

EDUCATION

Bachelor of Technology, Computer Science Engineering   **Aug 2019 - Apr 2023**
RGPV University, Bhopal
CGPA: 7.84 / 10
